

Internet Connection

English

2017-2018

Introductory document: The network services of the Résidence Léonard de Vinci.

Presentation

Connection price: 8€/month, payable to rezeleo at local rezo (see below).

Type of connection: The residence does not provide Wi-Fi access; access to the Internet is only done by Ethernet. We do not lend cables. You can buy them in any large department store (for instance: Auchan V2) if you don't have any.

How to get the Internet

First of all, try to connect your computer or router using an RJ45 cable so we can add you in our database.

Then, come to the *Rezeleo* room (cf. the map below) opened every **Monday and Friday**, between **6pm and 8pm**.

If you cannot find anyone in the *Rezeleo* place, you can get in touch with the student in charge of the connection. He might be unavailable, **so you should use this option as last resort**.

Student in charge

Mathilde MERX

Room: A103
E-mail: mathilde.merx@free.fr
Languages: French, English

Send an email with the time you would like to meet up with him. If you cannot send an email by any means, first go to the Rezeleo place, then (if no one is there) directly to his room.

The meeting only lasts a couple of minutes. **Please come with your computer or your router.**

Finding your way

 Local Rézo

Informations

Rate: 12 MBps (Up and Down)

Presentation of the network's services (share, TV...)
